

2023 Fall Specials at Nielsen Tree Farms

Growing for the Future!

We have some great specials for this fall digging season. We have good numbers of Flame Amur Maples which make a great screen or deciduous windbreak. We have several varieties of deciduous trees that we have extra numbers. We also have several varieties of larger 3" and 4" that we want to clear out the blocks for replanting. Tree specials are valid on orders of 5 or more trees, mix & match. Special prices are good through the fall digging season only. We have park grade trees available for your commercial jobs at a discount. Orders will be confirmed on a first-come, first-served basis.
