

# Spring Specials at Nielsen Tree Farms

*Growing for the Future!*

This spring we have a limited number of specials available due to large volume of pre-orders for the spring of 2021. We do still have a good supply of park grade Colorado Spruce that will be great for windbreaks. We also have good numbers of Bald Cypress which are great for wet areas.

Tree specials are valid on orders of 10 or more trees, mix & match. We have park grade trees available for your commercial jobs at a discount. Orders will be confirmed on a first-come, first-served basis.
