

Regal Prince Oak

(Quercus x warei 'Regal Prince')

Mature Height: 30'-50'

Mature Spread: 15'-20'

Growth Rate: Moderate

Fall Color: Yellow

Regal Prince is a columnar oak that is a hybrid of Columnar English Oak and Swamp White Oak. Its narrow shape that requires minimal maintenance, make it excellent for small spaces. It is highly resistant to powdery mildew. It is faster growing and more tolerant of poorly drained soils than most columnar oaks due to its swamp

white oak parentage. Regal Prince is an excellent as a street tree or for small spaces. It also makes a stately accent tree in a formal landscape garden. It also makes an impressive screen when planted together.
