

## *Autumn Fantasy Maple*

*(Acer freemanii 'Autumn Fantasy')*

Mature Height: 40'-50'

Mature Spread: 30'-40'

Growth Rate: Fast

Autumn Fantasy is a cross between Red Maple and Silver Maple that has the best qualities of each species. It grows fast like a silver maple, but has the strong branching and beautiful red fall color of the red maple. It is later than some varieties to change to its fall color, so the season of bright color can be extended in your yard. Autumn Fantasy is seedless like other freemanii

maples, but has an improved branch structure and consistent shape. It becomes a large shade tree in a comparatively short time and makes an excellent tree that provides beauty and shade to your yard.
