

2022 Spring Specials at Nielsen Tree Farms

Growing for the Future!

We have some great specials for this spring. We still have a good supply of park grade Colorado Spruce that will be great for windbreaks. We also have good numbers of Flame Amur Maples which make a great screen or deciduous windbreak. Tree specials are valid on orders of 10 or more trees, mix & match. Special prices are good through the spring digging season only. We have park grade trees available for your commercial jobs at a discount. Orders will be confirmed on a first-come, first-served basis.
