

# *Royal Frost Birch*

*Betula 'Royal Frost'*

Mature Height: 30'-40'

Mature Spread: 20'-30'

Growth Rate: Very Fast

Fall color: Orange/red

Royal Frost Birch is an elegant tree in either clump or single-stem form. It is a cross between Crimson Frost and Whitespire Birch. New leaves emerge green, turn bronze-purple in the summer and bright orange and red in the fall. It makes an excellent shade or accent tree. We sell this variety both as clumps and single-stem trees. The single-stem is great for small areas. It has interest even in winter as the smaller branches are a deep maroon color to contrast the snow. Due to being a hybrid of Whitespire, it is resistant to bronze birch borer.
