

Showtime Crabapple

(Malus 'Shotizam')

Mature Height: 15'-20'

Mature Spread: 10'-15'

Growth Rate: Moderate

Fall color: Yellow-orange

Flower: Fuschia

Showtime Crabapple is a newer variety. It blooms early in the spring with profuse bright fuschia flowers. In summer the leaves are a bronze-green. The fruit is tiny and cherry-red that persists on the tree throughout the winter as food for birds. In the fall, the leaves turn yellow-orange.

Showtime is very resistant to disease and maintains its

attractive shape with very little pruning. It is an excellent choice for an accent tree or to line your lane with color. It is highly resistant to the common crabapple diseases.
