

Swamp White Oak

(Quercus bicolor)

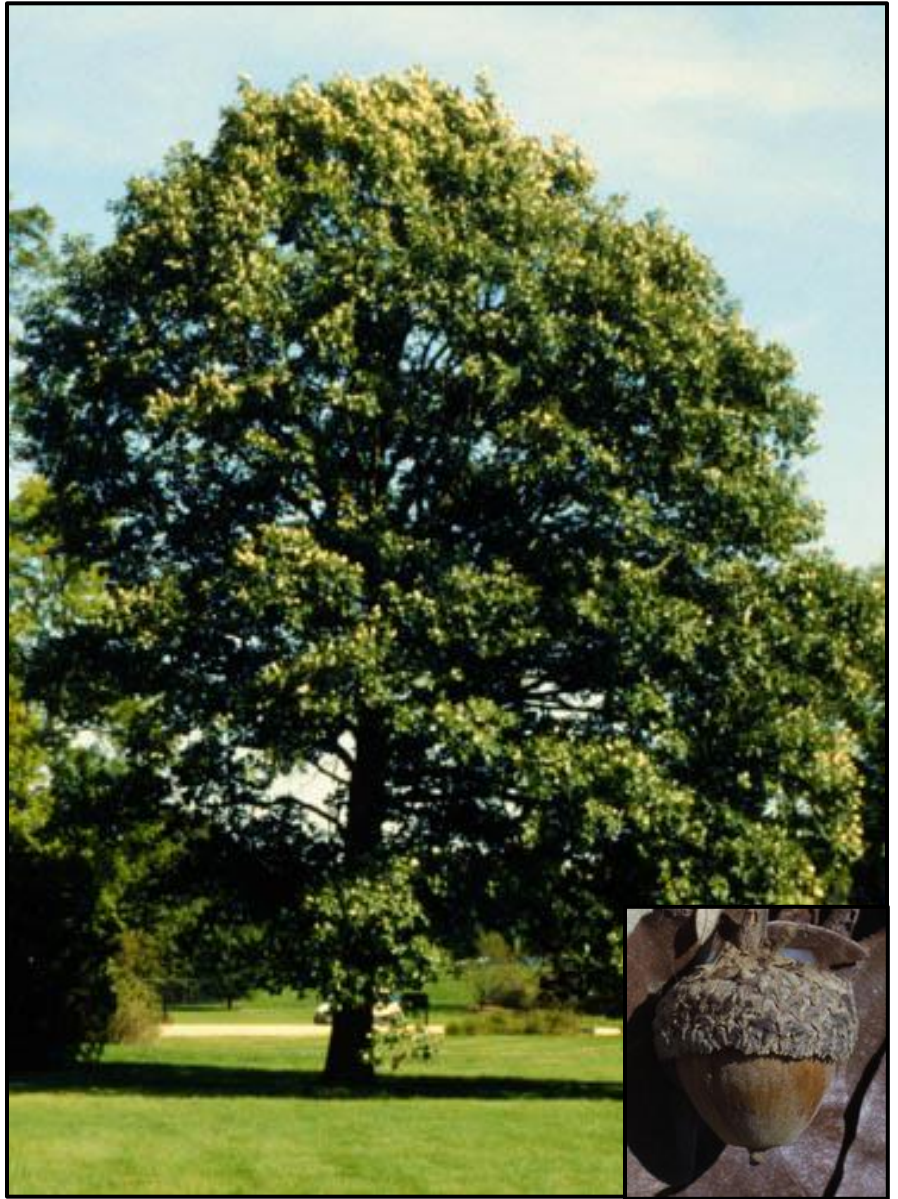

Mature Height: 40'-50'

Mature Spread: 40'-50'

Growth Rate: Fast

Swamp White Oak is a beautiful, native tree that is well adapted to heavy wet soils. It will grow in wet area that other oaks are unable to tolerate. It grows faster than many oaks and makes an excellent shade and specimen tree. It is very hardy and provides both food and shelter for wildlife. It transplants easily and quickly establishes itself in the new environment. Fall

color is yellow-brown. Like other oaks, the Swamp White Oak is a long-lived tree and can easily live 200 or more years. It is an excellent choice for someone who wants oaks in the landscape but has water drainage or soil compaction issues. It will quickly grow into a large and stately tree.
